

NEW YORKERS ARE BEING USED IN TERRORIST TRIALS

(Mr. GOHMERT asked and was given permission to address the House for 1 minute.)

Mr. GOHMERT. Mr. Speaker, our Attorney General intends to bring self-confessed terrorists to the most densely populated area in America. I know we have friends from New York that think this is a grand idea. They don't realize they're being used. We even have friends from New York who say, Bring these terrorists to New York; we want to try them so we can look them in the eye and sentence them to death.

Well, coming from a judge, a former judge, who has looked people in the eye and sentenced them to death, I know something about it. They're being used.

Once those terrorists set foot on New York—probably not before—the change of venue motion will be filed and people's comments like that—"we want to try them, then put them to death"—those will be used in support of the motion to change venue. They are not likely to be tried there with or without the terrorist activity and the threats and all that will follow. It is a bad idea. I hope cooler minds will prevail so they get the punishment they deserve.

SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Ms. WOOLSEY) is recognized for 5 minutes.

(Ms. WOOLSEY addressed the House. Her remarks will appear hereafter in the Extensions of Remarks.)

DESERT RAT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Mr. Speaker, yesterday the United Nations had an update on the government of the tiny tyrant in the desert of Iran. The U.N. nuclear watchdog agency, the International Atomic Energy Agency, or the IAEA, has released their new report on Iran's nuclear site. This facility, called Fordo, is being built inside a mountain near the religious city Qom. The IAEA concluded the facility had no relevance to any alleged civilian power program.

Western analysts say Fordo's small size will only allow enrichment of small amounts of uranium enough to make a nuclear bomb, but not enough to fuel a nuclear power station. Are we surprised with this finding.

The IAEA said in its report that Iran was not able to convince them that they weren't hiding other nuclear sites. Well, imagine that.

The Government of Iran sponsors acts of terrorism all over the world. Now this thuggish government seeks to threaten the world with nuclear holocaust. For 30 years, Iran has used terrorism, assassination squads, and hostages as their foreign policy.

And, Mr. Speaker, just look at the way this government treats its own people. The people of Iran live in fear of their own government and their own President. Iranian state television yesterday reported that five Iranian citizens were sentenced to death for peaceably protesting the fraudulent Presidential elections in June. That's right. They got the death penalty for exercising the human right to peaceably assemble. And in this Third World country, the death penalty rules the day.

Further, Mr. Speaker, the world witnessed earlier this year how the government even murdered its own people in the streets who peacefully protested the Presidential elections that were rigged by Ahmadinejad.

□ 1615

The cries of the murdered are from the blood of the Iranian freedom patriots who want freedom in their own country. More than 100 prominent opposition leaders in Iran are now being tried for peacefully protesting. Brave men and women of Iran who refuse to be trampled by the tiny tyrant, Ahmadinejad.

The United States should stand with the people of Iran that oppose this illegitimate reign of terror by their government and by their president. The government of Iran is the threat to world peace, especially peace in the Middle East. The sanctions that have been imposed by the U.N. and other Nations on Iran have failed to get the attention of the desert rat, Ahmadinejad. He continues to build his nuclear weapons. He continues to build intercontinental ballistic missiles so that he can fire those nuclear weapons. He continues to finance terrorist groups like Hezbollah and Hamas. He continues to meddle in the lawful affairs of Iraq, including supporting assaults and assassinations against the Iranian people that are in Camp Ashraf.

He sends aid and comfort to al Qaeda and to the Taliban in Afghanistan that war against American troops and NATO troops. The key to world peace and peace in Iran is a regime change sponsored by the freedom-loving citizens of Iran. Those noble citizens who have now become the enemy of their own government deserve our support and our encouragement here in America.

Mr. Speaker, deep down in the soul of every person who ever has been or ever will be born is the spark for freedom. The sons of liberty and the daughters of democracy in Iran have in their hearts that spark for liberty, and they will not be quenched by the tiny tyrant of Iran.

It is imperative that the United States recognize the true threat to

world peace, Ahmadinejad, and that we as a Nation and that we as a people stand shoulder to shoulder with the good folks of Iran, the citizens of Iran that want a change in their government.

And that's just the way it is.

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

(Mr. DEFAZIO addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Mr. JONES) is recognized for 5 minutes.

(Mr. JONES addressed the House. His remarks will appear hereafter in the Extensions of Remarks.)

FLORIDA'S FISHERMEN NEED OUR HELP

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, I have been to the floor of this Chamber on several occasions to discuss the tremendous economic hardships being shouldered by the residents of my congressional district of south Florida. This evening I would like to highlight the men and women of Florida's commercial and recreational fishing industries, and their efforts to weather this economic storm.

Mr. Speaker, Florida's recreational fishing industry is the largest in the Nation. Its economic impact to our State is to the tune of \$5.3 billion, and more than 5,400 jobs are generated by this industry. Similarly, Florida's commercial fishing industry is nearly 13,000 strong and contributes a staggering \$1.2 billion to our economy.

The strength of Florida's fishing industries is due largely to the diversity and the abundance of species within the Gulf of Mexico and the South Atlantic area. There are grouper and snapper, wahoo and yellowfin tuna, not to mention Keys lobster and stone crab. Thanks to this diversity, Florida's fishing industry is particularly resilient in the face of increased zoning regulations, bag limits, and even fishery closures. Our fishermen understand that maintaining a robust, healthy fishery through appropriate regulation is the key to their economic success.

However, present Federal action to implement multiple fishing regulations will have a chilling effect on this historic and important industry. In particular, Mr. Speaker, the South Atlantic Fishery Management Council is considering regulations which include but are not limited to: a complete ban on deepwater grouper fishing; annual catch limits on black grouper and red grouper; and catch limits on red snapper fishing.
